

No.	Title	PI/Designation
1	Study on the effect of HIV/AIDS on Socio economic Situation of HIV affected Households	Dr Yin Thet Nu Oo Dr Kyu Kyu Than
2	Evaluation of complementary effect of Traditional Medicine formulation to Category II Regime in TB Treatment	Dr Khin Chit
3	The Role of Merozoite Surface Protein(MSP) Malaria Antibody in treatment response of uncomplicated malaria in Myanmar	Dr Khin Myo Aye
4	Patterns, Outcomes and Contributing factors of Asphyxia among Newborns delivered at Central Women Hospital, Yangon during 2009-2011	Dr Myo Myo Mon
5	Utilization pattern of drinking water in rural households of arsenic contaminated areas and their awareness on arsenic contamination	Dr Ye Hein Htet
6	Betal quid chewing in a selected township	Dr Ko Ko Zaw
7	Determination of Human Papillomavirus (HPV) genotypes in anogenital tumours in men and women	Dr Mu Mu Shwe
8	Communication network for disaster preparedness towards protecting human health from climate change among community members and service providers	Dr Le Le Win
9	Molecular characterization of Chikungunya virus in Myanmar	Dr Aung ZawLatt
10	Acute kidney injury in children with dengue haemorrhagic fever in a tertiary care centre	Dr Win Lei May
11	Male participation in improving maternal and child health	Dr Myo Myo Mon
12	Use of IS 6110 PCR assay for rapid diagnosis of genitourinary TB	Dr Toe Lwin
13	Cluster randomized trial on the use of community volunteers for cardiovascular disease prevention and control in villages lacking health staff in Myanmar	Dr Ohnmar
14	Factors contributing towards urinary iodine level in pregnant women in coastal region	Dr Theingi Thwin
15	Assessment of GP's participation on TB management and treatment outcome in PPM DOTS in Myanmar: Patients' perspective	Dr Thet Naing Maung
16	Detection of dengue, measles, rubella, parvovirus B 19 and Chikungunya in children with fever and rash admitted to Yangon Children Hospital	Dr Mo Mo Win
17	Assessment of immunity to polio, measles and rubella through	Dr Hlaing Myat Thu

	antibody testing in serum and oral fluids, Myanmar 2012	
18	Detection of Day 3 parasite positivity of artemisinin based combination therapy(ACT) in MARC programme areas, Myanmar, 2012	Dr Kay Thwe Han
19	Detection of Tricothecenes(T-2) mycotoxin in selected preparations of peanuts	Dr Lai Lai San
20	Monitoring of residual blast cells in leukaemia by real time PCR	Dr Win Pa Pa Naing
21	Improvement of patient safety through adverse drug reaction monitoring among general practitioners in Yangon Region	Dr Min Wunn
22	Significance of some prognostic markers in histologically proven breast cancer patients	Dr Moh Moh Htun
23	Virulence gene pattern of H Pylori among gastric cancer patients	Dr Wah Wah Aung
24	Thyroid hormone profile and thyroglobulin in CA thyroid patients six months after radiotherapy	Dr Aye Aye Yee
25	Improved DHF control at schools using an integrated vector management(IVM) approach with community participation	Dr Sai Zaw Min Oo
26	Exploratory study on <i>Plasmodium knowlesi</i> infection among suspected malaria cases in selected township in Myanmar	Dr Khin Saw Aye
27	Pilot studies of the molecular epidemiology of drug resistant malaria in Myanmar	Dr Ye Htut
28	Establishment of monitoring system for drug resistant malaria: Identification of genetic markers in drug resistant falciparum and vivax malaria	Dr Ye Htut
29	Women and leadership: the experience of being a woman leader in Myanmar & perception of women leadership by communities across Myanmar society	Roisin Furlong
30	Establishment of molecular strain typing methods for Mycobacterium tuberculosis in Myanmar	Dr Wah Wah Aung
